From the Principal’s Desk

Curriculum Day

On Monday our staff had a very productive day. Teaching staff participated in morning sessions focused on the Victorian Curriculum that will be implemented in 2017. They looked at the similarities and differences between the Victorian Curriculum and the existing AUSVELS curriculum that is currently in place and the implications of the changes for whole school curriculum planning.

Fortunately staff are already familiar with the English and Mathematics curriculum documents as we have been working with these throughout 2016. Our next step will be to review and develop a new whole school Scope and Sequence Document that will outline the units of work to be covered at the different levels over a two year cycle. In the afternoon teaching staff focused on maths problem solving and the strategies that we need to teach children to be successful problem solvers in mathematics.

Members of our ES staff took part in a full day First Aid Training session that qualified them at First Aid Level 2. We now have almost all of our staff trained at this level ensuring that suitably qualified staff are always available to support our students when they are injured or unwell.

Victoria’s Child Safe Standards

In 2013, the Victorian Parliament held an Inquiry into the Handling of Child Abuse by Religious and Other Non-Government Organisations, resulting in the Betrayal of Trust Report.

The report found that more could be done to strengthen existing approaches to child safety. In response, the Victorian Government is phasing in child safe standards for organisations that work with children, including schools.

The child safe standards require schools to consider all aspects of child safety and put measures in place to protect children from all forms of abuse.

There are seven child safe standards:

1. Strategies to embed an organisational culture of child safety
2. A child safety policy or statement of commitment to child safety
3. A child safety code of conduct
4. School staff selection, supervision and management practices for a child-safe environment
5. Procedures or responding to and reporting allegations of suspected child abuse
6. Strategies to identify and reduce or remove risks of child abuse
7. Strategies to promote child empowerment and participation

An important step towards meeting the child safe standards has been the development of a child safety policy and a child safety code of conduct. At our last School Council meeting, the OPS Child Safe Policy and Code of Conduct was passed. It is attached to the newsletter for your information.
BRING A BLOKE NIGHT
Thank you to all of our families who supported our students by attending this event on Tuesday evening. We estimate that we had more than fifty of our families represented on the night and everyone seemed to enjoy moving around the rooms to complete a range of activities. Competitive spirit was clearly alive and well especially in the tower building challenge!

Enjoy your weekend - spring is in the air!

**LITERACY**

The preps are now focussing on the Tryin' Lion CAFÉ strategy. Tryin' Lion teaches us to read the sentence and try the tricky word and then try it again as we read to help us be more accurate with what we are reading. We can also use our other strategies to help us work out unfamiliar words such as stretchy snake, eagle eye and chunky monkey.

The grade ones and twos will spend this coming week making pictures in their head of the main ideas of the text as they are reading using Rocky Raccoon. They will also be using the Stretchy Snake strategy to help work out any unfamiliar words in the text to help develop their accuracy.

In writing this week, all the junior grades will be focussing on poetry. We have already been working on how to write an acrostic poem and will begin looking at string poems. We will be comparing the criteria from our Acrostic poems to our string poems.

**MATHS**

This week's focus is subtraction and addition. The preps are consolidating their ability to solve addition problems. The grade ones and twos will be beginning to look at subtraction.

**INQUIRY**

As the Olympics have now come to an end, the junior school will now be looking at design and technology. We will be designing, creating and testing our designs. We look forward to building some exciting structures over the last few weeks of school.

Hi All,

Sadly due to the weather District Athletics had to be cancelled, this will be rescheduled for week 9. Luckily the weather smiled on us for our Olympic Day. Our Olympic day was a great success and fun was had by all, the students all looked fantastic dressed in their country colours.

On Monday the senior students will be participating in the third of our Harmony Days for 2016. The Harmony Project runs between all primary schools in Officer and aims to promote acceptance and harmony of all people. The program allows the senior students the chance to get to know students from other schools in our area while participating in different activities. Monday is our Literacy Day where students will meet Morris Gleitzman and discuss his book Once, which the students have been reading.

Week 8 sees the end of our unit of Shapes in Maths and we will start focusing on multiplication and division for the remaining of the term. The students are continuing to work on their Travel Project which exposes them to Mathematics used outside of the classroom. The unit also teaches students about geography and exposes them to life skills for the future. In Literacy the students are working on developing their use of language and how to apply this when writing poetry. In CAFÉ the students are working on improving their ability to make inferences when reading and support them with evidence.

NP and BC

Week 8 sees the start of Mrs Peachey’s long service leave, her class will be in the capable hands of Mrs Taviner. We hope that Mrs Peachey has a fabulous time on her holiday.

**15th – 26th August**

This fortnight in the OSHC room the children have been enjoying craft activities using paper plates. First we made Paper plate animals/masks and this week we have been making Paper Plate dream catchers. We have enjoyed our usual Colouring In, Mobile, Lego, Sandpit Play & Dress Up. We have also been playing shops, having pretend picnics and ‘Guard Dogs’ in the home corner. Outside the children have enjoyed working on their Skipping – whether it was on their own or in a group, play 2-4 square, Markers Up & Soccer. With the lovely couple of days we had last week we went to the Basketball court and Playground, enjoying the nice warm sun!

Child Safe
POLICY

Rationale
Officer Primary School is committed to the safety and wellbeing of all children. Our school community recognises the importance of, and a responsibility for, ensuring our school is a safe, supportive and enriching environment which respects and fosters the dignity and self-esteem of children and young people, and enables them to thrive in their learning and development.

Background
On 26 November 2015, the Victorian Parliament passed the Child Wellbeing and Safety Amendment (Child Safe Standards) Bill 2015 to introduce seven child safe standards (the Standards) into law. The Standards apply to all organisations involved in child-related work in Victoria, with the aim of promoting cultural change in the way organisations manage the risk of child abuse and neglect.

The Child Safe Standards

Standard 1: Organisations must have strategies to embed an organisational culture of child safety, including through effective leadership arrangements.
Officer Primary School has a responsibility to ensure that policies and procedures demonstrate zero tolerance of child abuse at our school. The school community is informed about the strategies and practices around child safety and we periodically review the effectiveness of the strategies put into practice and, if considered appropriate, revise those strategies.

Standard 2: Organisations must have a child safe policy or statement of commitment to child safety.
Officer Primary School’s policies and procedures provide the foundation for and commitment to child safety in our school. Our values and principles have guided our school in developing policies and procedures to create and maintain a child safe school environment. Staff, parents/carers and children are supported and encouraged. They are able to understand, identify, discuss and report child safety matters. We will support or assist children who disclose child abuse, or are linked to suspected child abuse.

Standard 3: Organisations must have a code of conduct that establishes clear expectations for appropriate behaviour with children.
All staff at Officer Primary School are covered by a code of conduct which addresses child safety. We have recognised and considered existing professional codes of conduct when developing our Child Safety Codes of Conduct. Our Codes of Conduct promotes child safety in the school environment by setting standards about the ways in which adults are expected to behave with children.
**Standard 4:** Organisations must have screening, supervision, training and other human resources practices that reduce the risk of child abuse by new and existing personnel. Organisations must ensure that recruitment processes are in place to manage and reduce the risk of child abuse. In addition, processes must be in place to ensure that there are appropriate staff induction programs, staff professional development and staff supervision arrangements to ensure a child safe environment.

Each job or category of jobs for Officer Primary School staff that involves child connected work will have a clear statement that sets out the job’s requirements, duties and responsibilities regarding child safety, and the job occupant’s essential or relevant qualifications, experience and attributes in relation to child safety. New school staff will be inducted in the school’s policies, codes, practices, and procedures governing child safety and child connected work.

**Standard 5:** Organisations must have processes for responding to and reporting suspected child abuse.

Officer Primary School’s policies and procedures for reporting and responding to suspected child abuse enables individuals to take the appropriate course of action to protect the safety of students. We will respond appropriately to a child who makes or is affected by an allegation of child abuse by informing the appropriate authorities about the allegation, protecting any child connected to the alleged child abuse until the allegation is resolved and making, securing, and retaining records of the allegation of child abuse and the school’s response to it.

**Standard 6:** Organisations must have strategies to identify and reduce or remove risks of child abuse. The organisation governing authority must develop, implement, monitor and evaluate risk management strategies to ensure child safety in the organisation’s environments.

As part of our risk management strategy and practices, Officer Primary School will monitor and evaluate the effectiveness of our risk controls. At least annually, the School Leadership will ensure that appropriate guidance and training is provided to staff about their obligations and responsibilities for managing the risk of child abuse, child abuse risks in the school environment and the school’s current child safety standards.

**Standard 7:** Organisations must have strategies to promote the participation and empowerment of children. We must ensure that children feel safe to report abuse and have processes in place to ensure that students are empowered to raise any child safety concerns. Organisations must support students to develop appropriate knowledge and skills so that children can identify and communicate when they don’t feel safe.

Officer Primary School will deliver appropriate education about standards of behaviour for students attending the school, healthy and respectful relationships (including sexuality), resilience and child abuse awareness and prevention.
Policy

Officer Primary School implements the Child Safe Standards to ensure the safety and wellbeing of all our students. We promote an organisational culture that manages the risk of child abuse and neglect.

Our school has developed policies and procedures that aim to keep our students safe. The standards will provide a framework to identify gaps and improve policy and practices around child safety.

Officer Primary School

Our commitment to Child Safety

Officer Primary School is committed to child safety. We want all children to be safe, happy and empowered. We are supportive and respectful of all children, as well as our staff and volunteers. We have zero tolerance of child abuse. All allegations and safety concerns will be treated seriously and consistently following our policies and procedures.

Our school is committed to preventing child abuse and identifying risks early. We have robust human resources and recruitment practices for all staff and volunteers. We are committed to regularly training and educating our staff and volunteers on child abuse risks. We have both legal and moral obligations to contact authorities when we are worried about a child’s safety.

We support and respect all children, staff and volunteers. We are dedicated to the cultural safety of Aboriginal children and of children from culturally and/or linguistically diverse backgrounds, and to providing a safe environment for children with a disability.

Officer Primary School has specific policies, procedures and training in place that support or leadership team, staff and volunteers to achieve these commitments.

If you believe a child is at immediate risk of abuse phone 000

This policy guides staff and volunteers on how to behave with the children in our school. All staff and volunteers must agree to abide by our Code of Conduct which specifies the standards of conduct required when working with children.

Training and Supervision

Training and education ensures that everyone in our school understands that child safety is everyone’s responsibility. We aim to have a culture where all staff, volunteers, parents/carers and children feel safe, comfortable and confident in discussing child abuse and child safety issues. We train our staff to identify, assess and minimise the risks of child abuse and to be aware of the potential signs of abuse. We support our staff and volunteers to develop their skills to protect children from abuse, promote the cultural safety of Aboriginal children and those from a culturally and/or linguistically diverse background and ensure the safety of children with a disability. New employees and volunteers will be supervised regularly to ensure they understand our commitment to child safety and that they comply with our Code of Conduct.

Any inappropriate behaviour by staff or volunteers will be reported through the appropriate channels, including the Department of Health and Human Services and Victoria Police.
Recruitment

At officer Primary School we take steps to employ skilled people to work with our children. We develop selection criteria and advertisements which clearly demonstrate our dedication to child safety.

All staff and volunteers engaged in child-related work must hold a Working with Children Check and must provide evidence of the Check (www.workingwithchildren.vic.gov.au). Reference and police record (only for recruitment) checks will be carried out as a matter of routine to ensure we are recruiting the right people. If, during the recruitment process, a criminal history is found, the applicant will be given the opportunity to provide further information and context.

Fair procedures for personnel

While the safety and wellbeing of our children is our highest priority, we are also fair and just with our personnel. Decisions made when recruiting, assessing incidents and undertaking disciplinary action will always be thorough, transparent and evidence-based. We record all allegations of abuse and safety concerns using our Incident Reporting Form, including investigation updates. All records are securely stored.

Privacy

The privacy of individuals (staff, volunteers, parents and children) involved will be respected when information is considered or recorded unless there is risk to someone’s safety. We have safeguards and practices in place to ensure personal information is protected.

Legislative responsibilities

Officer Primary School takes our legal responsibilities seriously, including;

- All Victorian Teachers have a legal responsibility to report incidents where children’s safety is at risk. Victorian Government School employees are expected to follow DET Mandatory Reporting policy (http://www.education.vic.gov.au/school/principals/spag/safety/Pages/childprotection.aspx)
- Failure to disclose: Reporting child sexual abuse is a community-wide responsibility. All adults in Australia who have a reasonable belief that an adult has committed a sexual offence against a child under 16 have an obligation to report that information to the police.
- Failure to protect: People of authority in our school will commit an offence if they know of a substantial risk of child sexual abuse and have the power and responsibility to reduce or remove the risk, but negligently fail to do so.
- Any personnel who are mandatory reporters must comply with their duties.
Risk management

In Victoria, schools are required to protect children when a risk is identified. We have risk management strategies in place to identify, assess and act to minimise child abuse risks. These risks include those posed by physical environments (such as doors that can’t lock) and online environments (for example, no staff or volunteer is to have contact with a child in schools on social media).

Allegations, concerns and complaints

We take all allegations seriously at Officer Primary School and our staff and volunteers are trained to deal with allegations appropriately.
We work to ensure all children, families, staff and volunteers understand what to do and who to tell if they observe abuse or are a victim of abuse, or if they notice inappropriate behaviour.

We all have an obligation to report an allegation of abuse if we have a reasonable belief that an incident has occurred.

Reasonable belief
Factors contributing to a reasonable belief may be:

- A child states they or someone they know has been abused (noting that sometimes the child may in fact be referring to themselves)
- Behaviour consistent with that of an abuse victim is observed
- Someone else has raised a suspicion of abuse but is unwilling to report it
- Observing suspicious behaviour

Regular review

This policy will be reviewed every 2 years and following significant incidents if they occur.

**Child Safety Risk Management Program**

At Officer Primary School our child safety risk management strategy involves a formal and structured approach to managing risks associated with child safety. Our Child Safe Policy and Code of Conduct clearly outlines our commitment to implementing the 7 Standards for Child Safety as outlined in the Ministerial Order No. 870. Our process includes risk assessment (see below), implementation of controls and a monitoring and review process to ensure the applicability of the risk management approach.
